Afternoon half day Program \$495

12:15-3:00pm Tuesday and Wednesday and field trips Thursday 10-1pm

A duplicate of the morning session however it has a smaller class typically 8-10 students with two teachers. I give my more focused academic lessons with older students during this time. There are fewer students which makes a more relaxed and quiet atmosphere. Good for younger students who like a smaller environment and more attention. Also good for older students who need to move ahead academically and prepare for a longer day in kindergarten. Children bring their own snack for snack time.
